Test the **electrical safety** of your **installations**

### CA 6133 an essential tool for certification organizations, self-employed electricians and electrical contractors!

➤ The design of the multifunction CA 6133 for certification organizations, installers, self-employed electricians and maintenance teams makes it exceptionally simple to use.

- Earth measurement by stake and loop method
- Continuity measurement at 0.2 A
- Insulation testing
- RCD testing: current and tripping time
- Automatic test sequences
- Storage of the tests
- Power supply by batteries rechargeable via the mains, USB socket or vehicle cigarette lighter

➤ **A connected instrument!**  
 The IT-Report Android application

can be used to transfer the test results stored in the CA 6133 onto a tablet or smartphone via Bluetooth. It can also generate test reports and either send them automatically by email or simply store them.
