

# STEPS FOR K3 QUALIFICATION

## STEP 1

Electrical safety, function and electromagnetic emissions testing

- Tests linked to electrical safety
- Functional tests
- Electromagnetic emissions test

Tests on limits of use linked to the environment

- Electromagnetic disturbances
- Influence of temperature

## STEP 2

## STEP 3

Aging tests

- High temperature
- 2,000 hours

Seismic resistance tests

- Tremors

## STEP 4

Scan the QR code to watch the video of our seismic tests

## STEP 5

Technological validation tests

- Growth of whiskers
